

About Homes 4 U in Spain

We are a small concern concentrating solely on the area around Sax in the Alicante province of Spain. We have many local friends and contacts who choose to sell their properties through us because of our low rate of commission making the cost of the property more attractive to potential purchasers.

Our knowledge of the local area enables us to answer most questions newcomers may have about schooling, medical facilities, places to visit, places to eat, home renovation/decoration/furnishing and suppliers. We have contacts in the legal, financial and construction specializations and can recommend, or not, as appropriate.

At homes4uinspain we offer a wide range of properties in the area but if we don't have anything you like on our web site, feel free to email us at info@homes4uinspain.com with your specifications and we will endeavour to find something that meets your requirements. If you would like to see properties slightly further afield then we will use our network of agents to find something for you to see. Inspection Trip

If you decide that you would like to come over on an inspection trip, we will arrange viewings for you, closely matching your requirements.

We can find accommodation for you at very reasonable rates and whilst we do recommend a hire car to facilitate your independence during your stay, we can arrange collection from Alicante airport at a small additional cost.
